Introducing ZIRO for Microsoft.

The ONLY Teams Phone migration blueprint you'll ever need.

Get the Teams Phone solution you actually want.

1. Scoping Your Project.

The Project Definition Document is a high-level overview of your organization and the business outcomes you want to accomplish. It defines exactly what fits your needs, how you work, and what success looks like for you.

2. Assessing Your Environment.

The UC Assessment gives you a personalized overview of your entire PBX configuration. It's designed to give you a complete picture of your environment. It includes extensive, actionable insights about what you have, and how it could translate to Teams.

3. Solving Your UC Challenges.

The Technical Solution Document helps you understand exactly what you need. It maps out the architecture for your solution with expert recommendations for every option. Complex configuration analysis is also included so nothing is left up to chance.

4. Validating Your Solution.

Seeing is believing. Be 100% certain that Teams Phone is right for your organization by taking ZIRO's Proof of Value (PoV) for a no-obligation test-drive. See for yourself how easy it really is with 10 live accounts added on to your tenant.

5. Planning Your Migration.

The Statement of Work (SoW) is your roadmap that shows you exactly how much time and effort is required to plan and launch your project. It's a detailed deployment plan to confidently meet your deadlines and eliminate any risk. With ZIRO, there are never any question marks.

6. Finalizing Your New Solution.

Your personalized Pre-Launch Package provides you all the information you need to successfully migrate to your new Teams Calling solution, including a Requirements and Solutions Matrix, Project Plan, Complete List of What You Need, Cost Summary, and World-class Support.
